Stamford, Fairfield County, Connecticut,
Records of the Congregational Church : 1747 per 1846.

Copied in May 1905 by Mrs. Emily Louise Fay of Stamford, Conn.: (Mrs. Fay died 19 th. May 1913): given by Mrs. Fay to William A. Hardeley, Post Office Box 91, Brooklyn, New York. This copy transcribed in August 1914. As the original book is in very bad condition, the Church authorities have placed it in a Stamford Bank and will not permit its examination by the public : but transcripts are freely given to any one asking.

The original pagination is retained in this copy.

Page 187 : Marriages - - - - 1800

1800 November 24 : Isiah Smith : married to
Bethiah Webb

- - - - 1801 - - - -

1801 March 4 th. : Samuel Reed : married to
- - - - Jesseup

1801 November 25 : David Wilmet : married to
Hannah Gray

1801 December 7 : Uriah Raymond : married to
Rebeckah Judson

- - - - 1802 - - - -

1802 January 1 st. : Shadrach Hoyt : married to
Hannah Shaw

1802 January 3 rd. : Shubel Wicksen : married to
Polly Smith

1802 January 10 th. : Frederic Webb : married to
Nancy Smith

1802 January 31 st. : Isaac Keeler : married
to Mary F - - - - Palmer

1802 February 7 th. : Walter Buddington : married to
Mary Weed

1802 June 20 : Shadrach Scofield : married to
Abigail Knapp

1802 September 19 th. : Jacob Bates : married to
Abigail Smith

- - - - 1803 - - - -

1803 January 30 : Nathel Palmer : married to
Mary Webb

1803 February 15 : Silas Scofield : married to
Rebeckah Holmes

1803 February 15 : Theodore Parsons : married to
Sally Catchum : Note-this is the
same name as Ketchum : William A. Burdoley

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $f(x)$ is strictly increasing and concave down on the whole real line.

2. The second part of the paper is devoted to the study of the function $g(x)$ defined by the equation

$$g(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $g(x)$ is strictly increasing and concave down on the whole real line.

3. The third part of the paper is devoted to the study of the function $h(x)$ defined by the equation

$$h(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $h(x)$ is strictly increasing and concave down on the whole real line.

4. The fourth part of the paper is devoted to the study of the function $k(x)$ defined by the equation

$$k(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $k(x)$ is strictly increasing and concave down on the whole real line.

5. The fifth part of the paper is devoted to the study of the function $l(x)$ defined by the equation

$$l(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $l(x)$ is strictly increasing and concave down on the whole real line.

6. The sixth part of the paper is devoted to the study of the function $m(x)$ defined by the equation

$$m(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

It is shown that the function $m(x)$ is strictly increasing and concave down on the whole real line.

7. The seventh part of the paper is devoted to the study of the function $n(x)$ defined by the equation

$$n(x) = \int_0^x \frac{1}{1+t^2} dt, \quad x \in \mathbb{R}.$$

Stamford, Fairfield County, Connecticut,
Records of the Congregational Church.

Page 187 : Marriages - - - - 1803

1803 March __ : David Smith : married to
Azetha Smith

1803 April __ : Joseph Smith : married to
Sally Smith

1803 June 19 : Richard Scofield : married to
Hepzibah Reynolds

1803 June 23 : Abraham Lockwood : married to
Mary Sacket Knapp

1803 July __ : Abraham Hoyt : married to
Sally Knapp

1803 July 27 : Ezra Scofield : married to
Sally Smith

1803 October 17 : Deacon Daniel Bouton : of "N. Canaan,"
(Conn.) married to Widow Hannah Hoyt : of Stamford, (Conn.)
Note-this must mean New Canaan, Conn.

1803 November 24 : Henry B. Cobb : of Albany, New York
married to Mary Skelding : of Stamford, (Conn.)

Page : 188 : - - - - Marriages - - - - 1804

1804 February 7 : Hezekiah Hoyt : married to
Hannah Waterbury : Note-Eros Waterbury
married 9 May 1781 Sarah Waterbury, a daughter of Phineas
Waterbury and had Hannah Waterbury born 13 May 1784 :
married Hezekiah Hoyt : see the Waterbury Notes of Wil-
liam A. Eardeley

1804 February 7 : Rufus Knapp : married to
Elizabeth Scofield

1804 March 3 rd. : Charles Ward : married
to Elizabeth C. Davenport

1804 March 21 st. : Augustus Scofield : married to
Betsy Hoyt

1804 April 4 th. : Charles Knapp : married to
Elizabeth Lockwood

Stamford, Fairfield County, Connecticut,
Records of the Congregational Church.

Deaths.

These dates refer to the date of death and not to the day of the funeral. In a large number of cases, only the year of death appears in the records, and in other cases, the month and day are obliterated by the wearing of the page from constant use or the lack of care in keeping the book, as the edges of the pages are very badly worn. Several years ago, when the writer saw and personally examined this book, the binding was sadly in need of repair. I here give the deaths chronologically: but they are thus not in strict order as to pages: for they begin on page 270 and run to page 279: when the back of the book was filled up: and then they are continued on pages 250 per 269: and then are continued on pages 41 per 46: this will explain why this copy does not go continuously by pages. No deaths appear before the year 1788.

The original pagination is here retained in this copy.

Page 270 : - - - - 1788 - - - - Deaths

1788 January 7 : died Scotfield Scotfield : A child of Elisha

1788 January 17 : died _____ Scofield : The wife of

RESEARCH, DEVELOPMENT, AND
INNOVATION OF THE FUTURE

THESE ARE THE RESULTS :

1. The first of the results is the fact that the research and development of the future is a process which is continuous and dynamic. It is not a one-time event, but a process which is ongoing and evolving. This is because the future is constantly changing, and the research and development of the future must be able to adapt to these changes. This is why the research and development of the future is a process which is continuous and dynamic.	2. The second of the results is the fact that the research and development of the future is a process which is collaborative and interdisciplinary. It is not a process which is done in isolation, but a process which is done in collaboration with others. This is because the future is a complex and multifaceted phenomenon, and the research and development of the future must be able to draw on the expertise of many different disciplines. This is why the research and development of the future is a process which is collaborative and interdisciplinary.	3. The third of the results is the fact that the research and development of the future is a process which is innovative and creative. It is not a process which is done in a traditional and conservative manner, but a process which is done in a innovative and creative manner. This is because the future is a new and uncharted territory, and the research and development of the future must be able to think outside the box and come up with new and innovative ideas. This is why the research and development of the future is a process which is innovative and creative.	4. The fourth of the results is the fact that the research and development of the future is a process which is ethical and responsible. It is not a process which is done in a reckless and irresponsible manner, but a process which is done in a ethical and responsible manner. This is because the future is a place where the actions of today will have a lasting impact, and the research and development of the future must be able to take into account the ethical and responsible implications of its actions. This is why the research and development of the future is a process which is ethical and responsible.	5. The fifth of the results is the fact that the research and development of the future is a process which is transparent and accountable. It is not a process which is done in a secretive and opaque manner, but a process which is done in a transparent and accountable manner. This is because the future is a place where the actions of today will have a lasting impact, and the research and development of the future must be able to be transparent and accountable for its actions. This is why the research and development of the future is a process which is transparent and accountable.
